Height: 1000 mm (out of ground) +
200 mm (to embed)
Diameter: 102,3 mm
Weight: 8,3 Kg

Dimensions NILO (with base plate)

Height: 1000 mm
Diameter: 102,3 mm
Weight: 7,1 Kg

Versions

→stainless steel AISI304 electro-polished

Options

→Brackets for chain

→Adhesive reflectors for night visibility

→Oval chain 80x30mm in galvanized steel powder coated with "S" hooks to connect to the bollard

Fixing instructions

We recommend to embed the extension of the NILO bollard of L = 20cm in the floor jet.

The NILO bollard with base plate must be fixed to the ground using 3 Ø12.5mm holes.

The use of 3 M10 plugs is recommended.

The responsibility for the choice of the type of ground fixing lies on the installation company
